

Vaibhav Puranik

SVP, Engineering

Vaibhav Puranik leads GumGum's world-class engineering team, a position that has empowered him to play a key role in shaping our big data and natural language processing platforms. Puranik is also responsible for maintaining GumGum's entire server infrastructure, which includes thousands of servers located in AWS data centers all over the world.

Prior to joining GumGum in 2008, Puranik served as Principal Engineer at LowerMyBills.com. A frequent speaker at Los Angeles big data meetups, Puranik began his career with NASA's Johnson Space Center and holds a Master's degree in Computer Science from the University of Houston Clear-Lake. He currently resides in Los Angeles, where he spends his free time reading on a range of different subjects and writing for his three technology-related blogs.
